

Safe Neighbourhoods Start With You

The Victoria Police Department (VicPD) Block Watch program is a community-based approach to safe neighbourhoods. Residents partner with VicPD to be an additional set of eyes and ears and are asked to report all suspicious and criminal activity they observe.

Participation is voluntary; all you need is someone to take on the leadership role within your neighbourhood. That person accepts the duties of being a Block Watch Captain which includes enlisting your neighbours to sign up. Participants share information and work together with VicPD to maintain a positive approach to crime prevention initiatives.

VicPD looks forward to working with all the residents in the Rockland area in an effort to maintain a safe and healthy community in the neighbourhood where you live, work and play.
